

Lucia Hosein

Houston, TX | (832)-239-7044 | lh85@rice.edu | [Linkedin](#)

EDUCATION

Rice University, Houston TX

Bachelor of Science in Chemical and Biomolecular Engineering

Minor in Business,

Expected May 2029

RELEVANT COURSEWORK

Physical Chemistry, Chemical Engineering Fundamentals, Applied Engineering Programming

EXPERIENCE

ChampionX/SLB Guyana

June 2026 - Present

Lab Intern

- Conducting laboratory testing to evaluate production chemical and drilling fluid performance for offshore MODU operations
 - Chemical compatibility tests and Sludge Identification according to API standards
 - Full fluid QAQCs including moisture content, rheology, mud weight and chloride analysis
- Conducting cement testing to support MODU drilling operations
 - Design and modify cement slurry formulations and conduct testing using HPHT consistometers, rheometers, and ultrasonic cement analyzers to optimize thickening time and pourability

Kampouri Research Lab, Rice University

May 2026 - Present

Undergraduate Researcher

- Synthesizing and characterizing Metal-Organic Frameworks (MOFs) via solvothermal methods for applications in catalysis and photoelectrochemical devices
- Investigating ionic conductivity of MOFs as solid-state battery electrolytes, supporting development of safer, higher-energy-density batteries

Eclipse, Rice University

August 2025 - Present

Team Engineer

- Designing, manufacturing, and testing HTPB/paraffin fuel grains for nationally competitive hybrid rocket propulsion systems
- Optimizing fuel formulations and processing methods using student-designed spin-casting equipment to improve pour quality, combustion performance, regression rate, and thrust

Doerr Leadership Institute, Rice University

August 2025 - Present

Student Ambassador

- Developing leadership competencies through intensive training in communication, conflict management, collaboration and team leadership through year-long program
- Collaboration with fellow ambassadors to increase awareness of leadership programs through social media, student outreach, information sessions and tabling events

ACTIVITIES

Rice Society for Women Engineers

August 2025 - Present

Member

Rice Formula SAE : Powertrain/Engine Subteam

January 2026 - Present

Member

Rice Free Speech Commission

May 2026 - Present

Member

SKILLS

Programming : Java, Python, MATLAB

Software : SolidWorks, Microsoft Office Suite, Google Workspace

Hardware : Arduino

Languages : English, French (Conversational)
